

Duplex Heavy Duty Series Compressors

Commercial Two Stage 5 HP, 7.5 HP and 10 HP

GC4751201

- Two individual compressor pumps and motors Mounted on a single ASME tank
- Provides 100% backup if one compressor is down for maintenance
- Permits large HP single phase power installations
- Operates economically when compressed air demand fluctuates greatly
- Flexibility of single operation, alternating between compressors or duplex operation depending on air demand
- Advanced programmed alternating control
- (1) year limited parts and labor warranty
