

Mobile Gas Powered Compressors for Service Industry

Honda gas powered compressors designed for field work where an electrical power source is not available.

Medium Duty Truck Mount

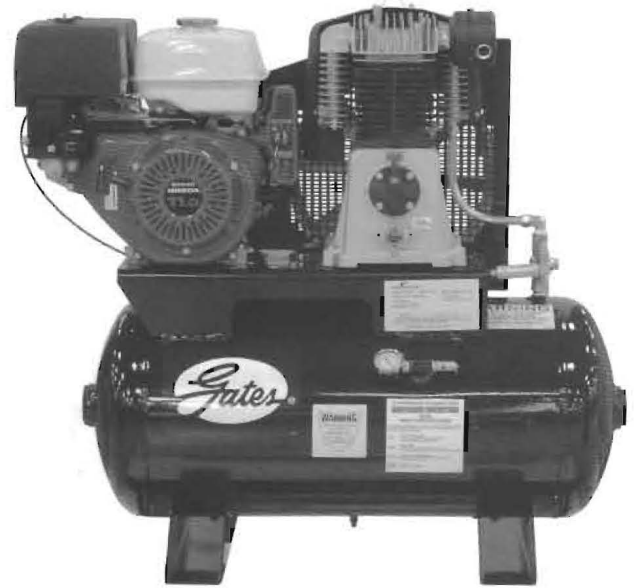

Medium Duty 2 stage, 175 PSI air compressors with 30 gallon ASME horizontal tank and manual drain are specially designed for field work. Pressure is preset at 145 PSI (load) and 175 PSI (unload). (1) year limited parts and labor warranty. Available in 8 HP and 11 HP.

- Features aluminum head and crankcase for fast heat dissipation and cast iron cylinders for long life and durability.
- Finned intercooler and after-cooler provide low operating temperatures and higher efficiency.
- Honda engines have electric start, splash type lubrication and are equipped with a fuel tank and gas saving throttle control that meets CARB low emission requirements.

Heavy Duty Truck Mount

Heavy Duty 2 stage, 175 PSI air compressor with 30 gallon Heavy Duty ASME horizontal tank and manual drain. Pressure is preset at 145 PSI (load) and 175 PSI (unload). (1) year limited parts and labor warranty.

- For service truck field requirements, tire shops, construction companies, heavy equipment companies, where extreme conditions are present.
- 2-cylinder, cast iron industrial pump
- Electric start engine with splash type lubrication is equipped with a fuel tank and gas saving throttle control that meets CARB low emission requirements.
