

# Airtex Fuel Delivery System Training CD

The Airtex Fuel Delivery System Training program incorporates the latest in interactive technology in an easy-to-navigate package. Sections include:

- Comprehensive fuel delivery system overviews;
- Details specific to various pump-types;
- Complete diagnostic and installation procedures;
- Failure and fault analysis guidelines.

The CD-based multimedia program is designed to educate counter professionals (and professional technicians) on the specifics of fuel delivery systems. Successful completion of the program involves an online or PDF based test that, upon successful completion, results in a Fuel Delivery System Specialist certificate, providing your commitment to your professional technician customers.

The Airtex Fuel Delivery system Training

Program reinforces Airtex's commitment to providing relevant and educational training material to support automotive aftermarket professionals. Earn your Fuel Delivery System Specialist certificate by contacting your local Airtex distributor for more information.

# Bendix Offers Seminars On Brake Electronics, Hydraulics And More

In 2007, the Bendix Brakes Answerman team is offering a number of training programs for both counterstaff and technicians.

Among them:

- “Automotive Brake Electrical & Electronics” – This course provides the fundamental knowledge of electrical theory, including Ohm’s Law, Kirchoff’s Law and series, parallel and series-parallel electrical circuits. The course also discusses electronic components and sensors used in today’s braking, ABS, stability and traction control systems. The brand also shares how wiring diagrams can help diagnose and solve brake electrical issues.
- “Automotive Hydraulic Brake Diagnosis” – this seminar is designed to provide fundamental knowledge of automotive hydraulic circuit operation. Bendix teaches hydraulic diagnosis using the latest tools and techniques.

To learn more about these classes and several others offered by Bendix Brakes, call Jay Buckley, the Bendix Answerman at 248-362-7186

*Ask the engine professionals at  
[askclevite.com](http://askclevite.com)*

Have you ever found yourself in the middle of a job only to find that you were missing some vital piece of information to finish it? Askclevite.com is open 24/7 to answer your technical questions. In our Tech Information section, you will find installation tips, technical's bulletins, and Solutions which are innovative resolutions to common problems. If you don't find the answers there, you can send a message to our Engine Experts and have an answer, typically within 24 hours.

## Delphis Offers “Products & Service Solutions” Seminar

Want to improve your up-selling abilities, enhance your product knowledge or discover new ways to increase customer satisfaction through communication? Then, the newest offering from Delphi TECHSOURCE is for you. The “Technical Selling Skills for Parts Specialists” seminar focuses on the “people” component that goes into building any successful customer relationship. It includes ways to use product features and benefits to better solve customer problems and tips on how to customize communication based on the audience, whether it's a DIYer, shop owner or technician. The Delphi Product & Service Solutions' seminar is offered in the evenings in both English and Spanish. Contact your Delphi parts provider for more detail or call 877-GO-DELPHI.
