50X and 70X-Series Tire Changers

- **Advanced Clamp Positioning:** Position clamps exactly where needed at any point between fully in and fully out.
- **Oil Injection System:** Direct injection avoids waste and effectively distributes oil to the moving components, ensuring better lubrication to reduce wear and lengthen life expectancy. 180 fl.-oz. container holds over a year's worth of oil for most shops.
- **Robo-Arm® Ready Tower:** Larger tower is standard on all models for easier future upgrades on 50X models.
- **Plastic Chassis Storage:** Keeps your tools right where you need them.
- **Advanced Hand Bead Loosener Option:** Available at no additional cost - just order an "H" version. Provides power in, power out, and hold capability to improve control and efficiency.

ProGuard™ Leverless Tire Changer

#85606688

Drop Ship

- Leverless design eliminates traditional tire tools that can mar the surface due to application difficulty or operator error
- When working on a regular or reverse mount wheel, the detachable center post locks it securely in position at the strongest part of the wheel
- Controlled through an easy-to-reach pedal, the automated wheel lift eliminates the strenuous process of manually placing heavy tire and wheel assemblies over the clamping chuck
- Loosens beads easily and effectively, with unmatched precision
- This powered assist device is a must for mounting run-flat and low profile tires

TCE 4230 SFA Swing Arm Tire Changer

#F00E900668

The TCE 4230 SFA handles passenger vehicles rims with external clamping up to 26", and accommodates tires up to 44" in diameter. It ensures that the top bead remains in the bead center when mounting difficult tires, and prevents accidental bead reseating. Also available without the articulating following arm.

- Maximum rigidity and turntable torque
- High performance mount/demount head with tire iron slot, ideal for mounting low profile tires
- Non-opposing adjustable jaws with inflation jets
- Ideal for servicing Tire Pressure Monitoring Systems (TPMS)

Nitrogen Tire Filler

#F00E900228 (Model NTF 715)

- Automatic operation inflates up to six tires simultaneously
- Battery powered fill controller makes unit totally portable
- The technician can easily select two choices of N2 purity
- Advanced 5.1 CFM flange-bore membrane for enhanced nitrogen purity and performance
- Superb filtration system promotes purity and membrane longevity
- Easy rolling foam-filled rear wheels won't go flat
- Vacuum system removes more residual air than traditional systems
- Auto shut-off minimizes compressor use for energy savings
- On-board tank conveniently stores generated nitrogen
- Quickly and simultaneously deflates four tires to atmospheric pressure
- Two service counters - one records full service and one for top-offs
